Summary

I've been a software developer for more than 3 years, focused on e-commerce enterprises using web development tools such as Java, ATG Commerce and React.js.

Professional Experience

Compasso Tecnologia - 2017 - Current

Working as a full stack developer since I started, going through multiple projects and new technologies

- **Livraria Cultura:** Developed features and worked on sustaining productive environments, using JQuery/ATG10.2/Endeca, also working with relational databases and load balancing with Nginx/Apache, and APIs REST.
- **Farmácias Onofre:** Developed features on third party legacy code, mostly using React.Js/GraphQL/ATG11.2/Endeca
- **Natura:** Code refactoring and internationalization, unity tests and working from start to finish on a new website (Natura Malaysia), also working with new on demand high-scale projects using ATG11.2/ElasticSearch/React.js. Application fully based on REST APIs.

Skills

- Java 7, 8 & 10, also using ATG Commerce (10.2 & 11.2), Endeca, BCC and Weblogic
- React.js/GraphQL/JQuery as the main tools for front-end
- Experience developing fully on ES6
- Experience with REST APIs
- Experience in developing and maintaining unity tests with Jest and Node.js
